

EuroShop offers an overview of the latest topics in the retail branch, whereby lighting plays an important role. At the 50<sup>th</sup> edition of the event the ERCO booth is dedicated to the question of how light creates emotions in shops. With in-house developed LED technology, ERCO offers consistently designed product ranges for eye-catching displays.

Simply drop by at our booth in Hall 9! Discover the latest generation of digital lighting tools from ERCO. Our innovations improve not only orientation and guidance in shops as well as merchandise visibility, but also ensure a high level of flexibility for ever new and surprising displays. We look forward to seeing you!
